

# Student Services

# Overview

## ⊗ May

- ⊗ Interns started – all in the office by 3<sup>rd</sup> week of May
- ⊗ Review previous work – work done over the last 3+ years by various groups on various campuses.
- ⊗ Gain an understanding of the problem space, decisions made to date, and direction/goals of the project.

## ⊗ June

- ⊗ Card sort data
  - ⊗ Review of card sort data from focus groups
  - ⊗ Individual card sort activity – each intern
  - ⊗ Establish initial data organization
- ⊗ 5 themes
- ⊗ Obtain feedback on initial ideas

# Overview

- ⊗ July

### Informatics

INFO 1101 Introduction to Informatics  
Instructor(s): Dan Richert, Nina Oestl  
Session: Regular Credits: 4

Description: This course teaches basic concepts in the field of informatics, focusing in particular on subjects that will prepare students for more advanced coursework in Informatics. Specific lecture topics taught include problem solving techniques, propositional logic, basic computer architecture, database concepts and SQL, networking basics, and information theory. A lab component teaches basic technology skills in the areas of web design and accessing UNIX systems. No previous programming experience is necessary.

X223 Clocks & Catapults \*Atkins MW 10:00-11:15 + LAB  
"Clocks and Catapults" will deal with the history of technology and Western civilization from the ancient world up to the seventeenth century, just before the Industrial Revolution that coincided with the European Enlightenment. The course will cover such topics as the development of machinery (including siege-weapons) and labor-saving devices among the Greeks and Romans; the so-called "Industrial Revolution of the Middle Ages," the development of clockwork from the clepsydra to the weight-driven mechanical clock; the interrelationship of technology and magic in the Middle Ages; the

## Sociology

**Description/Jobs**  
Given the breadth, adaptability, and usefulness of sociology to a variety of industries and careers, there are many employment opportunities for undergraduates. Skills in research design, data analysis, and identification of social trends can lead to careers in community and social services organizations, business and educational consulting, health organizations, criminal justice, federal and state government, the military, research centers, law enforcement, and public office. The discipline of sociology is excellent preparation for analysis-type careers such as emergency response planner, census analyst, foreign relations analyst, social impact assessment specialist, public opinion analyst, and interorganizational specialist assisting organizations in different countries or industries develop mutually beneficial structures and working relationships. A sociology degree combined with support areas or graduate study in political science, communication, history, English, or nursing also prepares you for practitioner-oriented careers such as lawyer, public works administrator, city planner, community health director, social worker, contract mediator, elected public official, and political advisor.

**Major Requirements**  
Required courses – 18 hours  
SOC 121-Principles of Sociology, 3 hrs.  
SOC 370-Seminar in Sociology, 3 hrs.  
SOC 375-Seminar in Sociology, 3 hrs.  
SOC 411-Introduction to Sociological Theory, 3 hrs.  
SOC 402-Statistics for Social Research, 3 hrs.  
Elective courses – 21 hours  
Twelve hours from the following list:  
SOC 341-Sociology of Medicine, 3 hrs.  
SOC 343-Sociology of Death and Dying, 3 hrs.  
SOC 345-Stimulated Games of Society, 3 hrs.  
SOC 370-Seminar in Sociology (different topic than one applied to above required courses), 3 hrs.  
SOC 375-Social Change, 3 hrs.  
SOC 411-Theory and Ethnology, 3 hrs.  
SOC 424-Population, 3 hrs.  
SOC 426-Sociology of Deviant Behavior, 3 hrs.  
SOC 431-Gender and Society, 3 hrs.  
SOC 441-Social Movements, 3 hrs.  
SOC 461-Sociological Issues in Education, 3 hrs.  
SOC 463-Wealth and Poverty, 3 hrs.  
ANTH 223-Cultural Anthropology, 3 hrs.  
ANTH 251-Peoples of Latin America, 3 hrs.  
SOC 200-Special Topics in Sociology, 3 hrs.  
SOC 221-Comparative Applications in Sociology, 3 hrs.  
SOC 225-Criminology, 3 hrs.  
SOC 231-Social Problems, 3 hrs.  
SOC 235-Juvenile Delinquency, 3 hrs.  
SOC 251-Principles of Social Psychology, 3 hrs.  
SOC 261-Marriage and Family, 3 hrs.  
SOC 489-Independent Study in Sociology, 1-3 hrs.  
SOC 489-Internship in Sociology  
ANTH 101-Introduction to Anthropology, 3 hrs.  
ANTH 200-Special Topics in Anthropology, 3 hrs.  
ANTH 251-Peoples of Latin America, 3 hrs.

**Minor Requirements**  
18 semester hours  
Required courses – 9 hours  
SOC 121-Principles of Sociology, 3 hrs.  
SOC 370-Seminar in Sociology, 3 hrs.  
SOC 402-level sociology course, 3 hrs.  
Elective courses – 9 hours  
Three three-hour sociology courses as directed advisor.  
(Note that one Anthropology course may be counted as one of these elective courses.)

# Feedback/Observations

## ⊗ Students:

- ⊗ Are very excited about the idea of having registration information in a single place.
  - ⊗ “why don’t we have something like this now?”
- ⊗ Want a single system that provides them with the data/information they need regardless of where (system/database) it comes from.
- ⊗ Do not want to see irrelevant information!
- ⊗ Like the look of the fun, more nonconventional themes, but would want a clear/obvious structure to help them find what they need.
- ⊗ Like icons, but want labels (at least initially) to help them learn and understand what the icons represent.
- ⊗ When provided with dynamic pieces of information, students want to interact with that data within the display area rather than drilling down through the main site navigation.
- ⊗ Want *important* information pushed to them - notifications

## Featured Club

### Computer Science

The Computer Science Club meets on a weekly basis during the school year. Club members support and participate in American Computer Science League, UIL, TCEA and other local computer contest competitions around the state. Other activities include field trips to universities, industries, and businesses to promote interest in technology and computer programming. Fundraising activities during the year help purchase additional computer equipment for our computers.

More Clubs

# Next Steps

- ⊗ Build out landing pages for each section
- ⊗ Refine layout
- ⊗ ‘Deep dive’ into a service – Registration, explore, degree progress, academic planner ... (?)
- ⊗ Survey students
  - ⊗ what services/information would they like to see on the home page.
  - ⊗ Prioritization – what service would they like to have available first (improved registration, degree explorer, academic planner...)
- ⊗ Focus groups & additional user feedback – conduct on an ongoing basis as screens are added or revised.
